Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PUBLICATIONS

OF THE

ASTRONOMICAL SOCIETY

OF THE PACIFIC.

VOLUME VI.

1894.

SAN FRANCISCO

PRINTED FOR THE SOCIETY.

1894.

TABLE OF CONTENTS.*

Publications No. 33, January 1, 1894.

PAGE

Medallion of JAMES LICK . . . . . *Frontispiece*

List of Members of the Society, January, 1894 1

List of Corresponding Observatories and Institutions 16

By Laws of the Society 19

Publications No. 34, January 27, 1894.

The Occultation of *Saturn*, May 25, 1893, by JOHN TEBBUTT, F.R.A.S. 23

Considerations on the Methods of Representing the Milky Way, suggested by a recent work, by Professor EDWARD S. HOLDEN 24

The Disintegration of Comets, by Professor H. A. NEWTON 30

The Design of the Cordoba Catalogues, by Mr. R. H. TUCKER, Jr. 34

Astronomical Observations at Odder, Denmark, in the year 1893, by Mr. TORVALD KÖHL 37

List of Earthquakes in California for the year 1893, compiled by C. D. PERRINE 41

View of the New DUDLEY Observatory . . . . . faces page 45

Notices from the Lick Observatory 45

Earthquake of November 6 (October 6?), 1711 45

Twenty-Inch Equatorial for the Observatory of Manila 45

Large Refractor for the Observatory of Meudon 46

Summary of Rainfall and Temperature Observations from September, 1880, to November, 1893, at the LICK Observatory, compiled by C. D. PERRINE 47

Bright Meteor (?) in North Carolina, December 20, 1893. . . . 47

Missing Maps of ARGELANDER'S *Durchmusterung* Wanted . . 47

Universal Time 48

Award of the *Arago* Medal to Professors HALL and BARNARD 49

The New DUDLEY Observatory 49

Contributions to the Literature of *Nova Aurigæ*, by Professor W. W. CAMPBELL 49

VOGEL'S Theory of *Nova Aurigæ*, translated from *Über den neuen Stern im Fuhrmann*, by Mrs. ELIZABETH B. CAMPBELL 50

The New Star in *Norma*, by Professor W. W. CAMPBELL . . . 52

* To the Binder: this should precede page 1, Volume VI.

PAGE

The Discovery of Asteroids in 1893, by Professor W. W. CAMPBELL 54

Conferring of the Degree of Doctor of Mathematical Sciences upon Miss DOROTHEA KLUMPKE 54

Photographic Map of the Normal Solar Spectrum (made by Professor H. A. ROWLAND) 55

Photographing the Corona 57

The Variation of the Intensity of Gravity at Different Points of the Earth's Surface, by Professor W. W. CAMPBELL 58

The New Notation for the Hydrogen Lines, by Professor W. W. CAMPBELL 60

Elevation of the LICK Observatory above Sea, as Determined by Officers of the United States Coast and Geodetic Survey . . 61

Determination of the Errors of the Meridian Circle in 1893, by Mr. R. H. TUCKER, Jr. 63

The Red Star, DM + 36° 4025, by Professor W. W. CAMPBELL 64

Jupiter's Fifth Satellite 65

Death of Professor RUDOLF WOLF 65

Medallion of JAMES LICK 66

Award of the JANSSEN Prize to Dr. LANGLEY 66

New Nebula Discovered by Mr. R. H. TUCKER, Jr. 66

Photography of Light of Short Wave-Length, by Dr. VICTOR SCHUMANN 66

Theory of Photographic Photometry 67

The System of 61 *Cygni* 68

Minutes of the Meeting of the Directors, January 27, 1894 69

List of Members Elected 69

Minutes of the Meeting of the Society, January 27, 1894 69

List of Papers Presented 69

Officers of the Society, etc. 71

Publications No. 35, March 31, 1894.

Corona of April 16, 1893 (heliogravure) . . . . . *Frontispiece*

Address of the retiring President of the Society at the Sixth Annual Meeting, March 31, 1894 73

View of the CHABOT Observatory . . . . . faces page 85

The CHABOT Observatory, by Mr. CHARLES BURCKHALTER . . . 85

The Harvest Moon, by Mr. ORRIN E. HARMON 89

Can Organic Life Exist in the Planetary System Outside of the Earth? by Mr. C. A. STETEFELDT. 91

The New Star in *Norma*, by Professor W. W. CAMPBELL 102

PAGE

An Explanation of the Bright Projections Observed on the Terminator of *Mars*, by Professor W. W. CAMPBELL 103

Notices from the Lick Observatory 113

The Inner Corona of April 16, 1893, by Professor SCHAEBERLE 113

Large-Scale Photographic Maps of the Moon, by Professor HOLDEN 113

Missing Map of ARGELANDER'S *Durchmusterung* Wanted . . 115

Publications of the LICK Observatory, Vols. II and III 115

A Proposed Astronomical Congress at the Midwinter Fair . . 116

The Fire-Ball of February 1, 1894, by C. D. PERRINE 116

A Letter from Professor NEWTON on the Candelaria Meteor of February 1, 1894 119

New Astronomical Station for HARVARD University 122

Memorandum to Foreign Correspondents of the Astronomical Society of the Pacific and of the LICK Observatory 123

A Brilliant Aurora, February 22, 1894, by C. D. PERRINE . . . 124

Connection between Solar Activity and Magnetic Disturbances, etc., on the Earth, by Mr. E. WALTER MAUNDER, F. R. A. S. 125

Improvement of the Water-Supply at Mount Hamilton 125

The Dawn of Astronomy: A Study of the Temple-Worship and Mythology of the Ancient Egyptians, by Professor J. NORMAN LOCKYER, C. B. (Reviewed by M. W. H.) 126

Erratum in Vol. I, *Publications* of the LICK Observatory . . . 132

New Photographic Telescope Presented to the Greenwich Observatory by Sir HENRY THOMPSON 133

The Spectrum of Lightning 133

Special Students at the LICK Observatory 134

Steam Heating in the LICK Observatory 134

List of Earthquakes in California. 135

Meridian Circle Observations at Madison, by Mr. R. H. TUCKER, JR. 135

Discovery of Comet A, 1894 136

Discovery of Comet B, 1894 136

Recent Observations of the Satellites of *Jupiter*, by Professor HOLDEN 137

Erratum in *Publications*, No. 32 138

Visitor to the LICK Observatory 138

Meridian Circle Observation of Comparison Stars, by Mr. R. H. TUCKER, JR. 139

The LICK Observatory Photographs of *Mars*, by Professor W. W. CAMPBELL 139

The Levels of the Meridian Circle, by Mr. R. H. TUCKER, JR. . 141

PAGE

SCHIAPARELLI'S Observations of Bright Spots on *Mars* . . . 141
Discovery of Comet I, 1893, by Professor HOLDEN 144
Minutes of the Meeting of the Board of Directors, March 31, 1894 145
List of Members Elected 145
Minutes of the Annual Meeting of the Society, March 31, 1894 . . 145
List of Papers Presented 145
Report of the Nominating Committee 145
Report of the Committee on the Comet-Medal 146
Report of the Treasurer. 147
Report of the Auditing Committee 148
Minutes of the Meeting of the Directors, March 31, 1894 148
Officers of the Society, etc. 149

Publications No. 36, June 9, 1894.

Vassar College Observatory (wood-cut) . . . . . *Frontispiece*
Vassar College Observatory, by Professor MARY W. WHITNEY . . 151
Astronomical Photographs at the Midwinter Fair, by Mr. ALLEN H. BABCOCK 152
Fifteenth Award of the DONOHOE Comet-Medal 157
On the Forms of the Disks of *Jupiter's* Satellites, by Professor J. M. SCHAEBERLE 157
The LOWELL Observatory in Arizona, by Professor E. S. HOLDEN . 160
Drawings of *Mars* in 1892 . . . . . face page 165
Drawings of *Mars*, by Professor WM. PICKERING . . . . face page 167
Drawings of *Mars*, by Professor W. J. HUSSEY . . . . . face page 166
Drawings of *Mars*, by Professor W. W. CAMPBELL . . . face page 169
Drawings of *Mars*, by Professor W. W. CAMPBELL . . . face page 171
Notices from the Lick Observatory 171
Drawings of the Planet *Mars*, by Professor W. W. CAMPBELL. 171
Temperature on the Surface of Fixed Stars and of the Sun, Compared with that of Terrestrial Heat Sources, by Professor J. SCHEINER, Potsdam 172
Letter from Dr. VEEDER Regarding the Aurora of February 22, 1894 173
Rotation of the Planet *Saturn* (extract from a paper by W. J. L. in *Nature*, May 10, 1894). 174
Orbit of Comet A, 1894, from *Nature*, May 10, 1894 176
Students at the LICK Observatory, 1894 176
Visitors to the LICK Observatory, 1888–1894 176
Researches upon Comet V, 1889, by Dr. CHARLES LANE POOR 177
The Variation of Terrestrial Latitude, by Dr. S. C. CHANDLER 180

PAGE

Number of Clear Days in the Months of May and June at the LICK Observatory, by C. D. PERRINE 183
The LOWE Observatory, Echo Mountain, California. 183
Slight Earthquake Shock, May 7, 1894, by Mr. R. H. TUCKER, JR. 184
The Orbit of 70 *Ophiuchi*, by Mr. R. H. TUCKER, JR 185
The Parallax of 70 *Ophiuchi*, by Mr. R. H. TUCKER, JR. . . . 187
Minutes of the Directors' Meeting, June 9, 1894 188
List of Members Elected 188
Resolution to Print the Treasurer's Detailed Account of Expenditures 188
Resolution to Transfer Funds from General Fund to Life Membership Fund 188
Treasurer's Statement of Expenditures from the General Fund, 1889–1894 189
Minutes of the Meeting of the Society, June 9, 1894 190
Papers Presented 190
Officers of the Society, etc 191

Publications No. 37, August 15, 1894.

Eye-end of the 36-inch Equatorial . . . . . *Frontispiece*
Planetary Phenomena for November and December, 1894, by Professor MALCOLM MCNEILL 193
Photographic Observations of *Algol*, by Mr. SIDNEY D. TOWNLEY . 199
Remarks on the "Photographic Observations of *Algol*," by Professor J. M. SCHAEBERLE 208
Stellar Parallax, by Professor F. P. LEAVENWORTH 209
Can Organic Life Exist in the Solar System Anywhere But on the Planet *Mars?* Communicated by M. CAMILLE FLAMMARION . . 214
Sixteenth Award of the DONOHOE Comet-Medal. 218
Cloud Observations on the Island of Yezo, Japan, with Reference to the Solar Eclipse of 1896, August 9, by Professor W. W. CAMPBELL 218
Predictions for the Transit of *Mercury*, November 10, 1894, by Mr. ORRIN E. HARMON 220
The Arequipa Observations of *Mars* and *Jupiter*, by Professor W. H. PICKERING 221
Addendum—The Arequipa Observations of *Mars* and *Jupiter* in 1892, by Professor E. S. HOLDEN 225
Charts of Faint Stars for Magnitude Comparison (Second Series), by Mr. R. H. TUCKER, JR. . . . . Chart faces page 227
. . . . . Text on page 227
Seventeenth Award of the DONOHOE Comet-Medal 228

PAGE
The Spectrum of *Mars*, by Professor W. W. CAMPBELL. 228
LICK Observatory from the Northeast (half-tone) . . . . faces page 237
Notices from the Lick Observatory 237
Discovery of Comet I, 1893, by Professor E. S. HOLDEN . . . 237
The Coronal Comet of April 16, 1893, by Professor J. M. SCHAEBERLE 237
Views of the Eye-end of the Large Telescope, and of the LICK Observatory 238
Life of Madame SOPHIE KOVALEVSKY 239
Meridian Circle Observations at the LICK Observatory, July, 1893, to July, 1894, by Mr. R. H. TUCKER, JR. 239
Forest Fires at Mount Hamilton, July 29 to August 3, 1894, by Professor E. S. HOLDEN 240
Variations of Latitude in San Francisco, as Determined by Professor GEORGE DAVIDSON 242
Suggestions to Members of the Astronomical Society of the Pacific 243
Reproduction of a Photograph of Comet *b*, 1893, by Professor W. J. HUSSEY 243
Request for Observations of the Meteor of July 27, 1894. . . . 243
Officers of the Society, etc. 244

Publications No. 38, December 1, 1894.

Medallion of JAMES LICK (wood-cut) . . . . . *Frontispiece*
The LICK Observatory Eclipse Expeditions of January, 1889, December, 1889, and of April, 1893, by Professor E. S. HOLDEN 245
Lunar Eclipses and Some Similar Phenomena, by Mr. W. H. S. MONCK 254
Predictions for the Transit of *Mercury*, November 10, 1894, by Mr. ROGER SPRAGUE 258
Planetary Phenomena for January, February and March, 1895, by Professor MALCOLM MCNEILL. 258
Dawn (half-tone) . . . . . faces page 262
The Meteor of July 27, 1894, by Professor E. S. HOLDEN 268
Drawing of the Meteor of July 27, 1894, by Mr. CHAUNCEY M. ST. JOHN (half-tone) . . . . . faces page 268
The Probable Revolution of the Orbit of the Inner Satellite of *Mars*, by Professor W. W. CAMPBELL 270
Observations of the Transit of *Mercury*, November 10, 1894:—
At the CHABOT Observatory, Oakland, by Mr. CHARLES BURCKHALTER 271
At St. Helena, Napa County, Cal., by Mr. ALLEN F. GILLIHAN 271

PAGE

At College Park, University of the Pacific, by Professor R. G. AITKEN 272
At San Francisco, by Mr. F. R. ZIEL 272
Concerning an Atmosphere on *Mars*, by Professor W. W. CAMPBELL 273
Drawings of *Mars*, 1894, by Professor E. S. HOLDEN . . faces page 285
Notices from the Lick Observatory. 285
Bright Projections at the Terminator of *Mars*, by Professor E. S. HOLDEN 285
Diagrams of *Mars*, Showing Bright Prominences, by Professor E. S. HOLDEN . . . . . faces page 286
Map of the Vicinity of Mount Hamilton . . . . . faces page 287
FROST'S Translation of SCHEINER'S Spectral-Analysis. 287
Map of the Neighborhood of Mount Hamilton 287
Visitors to the LICK Observatory 287
Apparatus for Photographing Meteors 287
The Sextuple Photographic Telescope . . . . . faces page 288
Extract from a Letter from M. FLAMMARION Relative to the Eclipse Comet of 1893, and to the Bright Projections on the Terminator of *Mars* 289
Partial Eclipse of the Moon, September 14, 1894 290
Plate of the Moon. 290
Portrait of Mr. LICK 290
Illustrations of the LICK Observatory Station in Chile, by Professor J. M. SCHAEBERLE 290
LICK Observatory Eclipse Station, Mina Bronces, Chile (half-) tone . . . . . faces page 290
Mina Bronces, Atacama, Chile (half-tone) . . . . . faces page 291
Meeting of the American Association for the Advancement of Science, in San Francisco, in August, 1895, by Professor E. S. HOLDEN 292
Eye-end and Interior of the 40-foot Telescope (half-tone) . . . . . faces page 292
Officers Elected for the Meeting of the A. A. A. S. in 1895 . . 293
Observing List for the Meridian Circle, by Mr. R.H. TUCKER, JR. 293
Bright Aurora, August 19, 1894, by C. D. PERRINE 293
Observations of the August Meteors of 1894 294
Errata in *Publications* No. 37, by Mr. R. H. TUCKER, JR. . . . 294
The Eclipse Comet of April 16, 1893, by Professor E. S. HOLDEN 295
Bright Meteor of July 29, 1894, by C. D. PERRINE 295
Bright Meteor of July 29, 1894, by Mr. E. A. RICHON 295
Enlargements of Lunar Photographs by Professor W. PRINZ; Reviewed by Professor E. S. HOLDEN 296

PAGE

Reflecting Telescope for Sale 296
Note on Aurora Observations, by Dr. VEEDER 297
Transit of *Mercury*, observed at the LICK Observatory :—
By Professor SCHAEBERLE 297
By Professor BARNARD 297
By Mr. CAMPBELL 298
By Mr. TUCKER 298
By Mr. PERRINE 298
The Moon (half-tone) . . . . . faces page 298
Corrections to the LICK Observatory Railway Time-Signal, by Mr. TUCKER 299
Photographs of the Transit with the Photoheliograph 299
Picture of the Great Meteor of July 27, 1894 299
Corrections to HUSSEY'S Logarithmic Tables, by Professor W. J. HUSSEY 299
The Chemical Constitution of *Mars*' Atmosphere, by Dr. HENRY H. BATES 300
Orbit of Comet *e*, 1894 (E. D. SWIFT, November 20), by Professor A. O. LEUSCHNER 302
Discovery of Comet *e*, 1894 (SWIFT) 302
Bright Prominences on the Terminator of *Mars*, seen after Opposition 302
The Eclipse Comet of April, 1893 302
Decoration for Professor HOLDEN 303
Erratum in No. 37 303
Minutes of the Directors' Meeting, September 1, 1894 304
List of Members Elected 304
Resolution that the *Publications* be entered in San Francisco Post-Office as Second Class Matter 304
Minutes of the Meeting of the Society, September 1, 1894 304
List of Papers Presented 305
Minutes of the Directors' Meeting, November 24, 1894 305
List of Members Elected 305
Resolution Authorizing the Withdrawal of Money from the Life Membership Fund 306
Minutes of the Meeting of the Society, November 24, 1894 306
List of Papers Presented 306
Officers of the Society, etc. 307
